PROFESSIONAL SUMMARY

Frontend Engineer with 3+ years of experience building scalable, responsive, and high-performance web applications using React.js, Next.js, TypeScript, and Redux. Proven track record delivering production-grade projects for international clients including Optus Australia and Taco Bell India. Immediate joiner. Open to work anywhere in India.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), Redux, Redux Toolkit, Tailwind CSS, HTML5, CSS3

Backend: Node.js, Python, FastAPI, REST APIs

Tools: Git, GitHub, Figma, Firebase, Keycloak (SSO), Google Maps API, Unreal Engine

Other: SEO Optimization, Cross-browser Compatibility, Responsive Design

PROFESSIONAL EXPERIENCE

Frontend Engineer October 2023 – September 2026

Lyxel & Flamingo (L&F) — Gurugram, Haryana, India

- Developed and scaled responsive web applications using React.js, Next.js, TypeScript, Redux, and Tailwind CSS, integrating robust REST APIs for multiple enterprise clients.
- Built 3 internal dashboards for Optus Australia and a unified umbrella portal with Single Sign-On (SSO) using Keycloak, improving team operational efficiency.
- Developed Taco Bell India web app (m.tacobell.co.in) using Next.js and Google Maps API, increasing online sales by 10% through improved user experience and checkout flow.
- Collaborated with cross-functional teams to translate Figma designs into pixel-perfect, SEO-optimized interfaces across Android, iOS, and web platforms.

Software Developer November 2022 – June 2023

Ateerna Solutions Private Limited — Bengaluru, Karnataka, India

- Built and maintained user interfaces using React.js and CSS, adding new features and resolving bugs across existing software products.
- Contributed to a metaverse project using Unreal Engine and Blueprints to develop interactive 3D scenes and levels.

KEY PROJECTS

Taco Bell India - Web Application m.tacobell.co.in

- Built full-featured ordering web app using Next.js, Redux Toolkit, TailwindCSS, and Google Maps API supporting delivery, takeaway, and dine-in modes.
- Integrated location module with Google Maps and Search API for delivery address and store finder functionality.
- Increased online sales by 10% through improved UX, seamless checkout flow, and cross-platform bug resolution.

Optus Australia - Internal Dashboards & Umbrella Portal

- Developed 3 internal dashboards for device management and a unified umbrella portal using React.js, TypeScript, and Redux.
- Implemented Single Sign-On (SSO) using Keycloak enabling seamless authentication across all internal applications.

Teacher Tracker - School Management System test-teacher-tracker.netlify.app

- Built full-stack web app using React.js, Redux, Firebase Authentication, and Cloud Firestore with Admin and Teacher portals.
- Automated scheduling and attendance tracking, eliminating administrative errors and improving coordination efficiency.

Druk Green Power Corporation drukgreen.bt

- Built complete corporate website converting Figma designs into pixel-perfect, cross-browser compatible interfaces using HTML, CSS, and JavaScript.

Artize - Premium Brand Website (Jaguar) artize.com/in

- Delivered premium website for Jaguar brand Artize using custom HTML, CSS, and JavaScript with focus on high-end visual design and brand consistency.
